To State Clearinghouse staff:

It has come to our attention that we submitted the incorrect version of our IS/MND yesterday to your system. The attached document has a few additional accessibility items included that were not in the version that we uploaded. The specific items that have changed in this attached version are:

Maps are in-line with text.

Figure labels were added.

Header rows were swapped for the tables in Appendix B (only one header row is allowed).

The Table of contents was missing Greenhouse Gas line after generating links by using header styles. It has been replaced.

Title and author were updated on the file properties.

After converting the Word document into PDF, the CEQA checklist (p.21) was manually changed into plain text.

Bookmarks were added to the PDF.

None of the content of the document has been changed. Please replace the previous IS/MND posted on your website for review with the version attached to this email.

Please also let us know if there is anything else we need to do to remedy this issue. We apologize for the inconvenience this has caused.

Thank you very much for your help,

CDFW
